

# ITC BS001: Bottle Sampler

## Equipment description:

LasPaC11 Bottle Sampler 250

Analysis Everywhere - Bottle Sampling Unit

If a direct particle count on your system is not possible, the LasPaC II bottle sampler units allow you to take measurement samples for analysis at a later time.

Conditioning - The De-aeration Facility

Therefore, a de-aeration process has been incorporated into the bottle sampling units.

By evacuating the air from the sampling chamber, properly conditioned prior to sampling.
